PREMIUM SITES AND CABINS

PATIO SITES:

- For your safety, and the integrity of our equipment, please do not move any patio furniture, firepits, grills, or propane tanks from your site. Doing so may incur in a repair/replacement fee
- To maintain the integrity of our sites, tents are not permitted on RV sites.
- One vehicle is allowed per site at a time.
- Enjoy one free propane refill per day for your firepit or grill during office hours. If you need extra propane outside of this, we'll be happy to provide it for an additional charge.

CABINS:

Check-Out Instructions:

- Please remember to remove any trash from the cabin before departure. You'll find 4 convenient dumpsters around the property for disposal.
- If you've used any dishes, kindly give them a quick wash and return them to their proper place.
- The cabin should be left the way it was found.

Additional Information:

- For Cabins 1-9, there's a switch in the kitchen that controls the water heater. Please make sure the switch is on upon arrival, and feel free to leave it on for the duration of your stay.
- Keep in mind, the water heaters are on the smaller side, so they may need a few minutes to reheat between uses.
